

Do I have an Account?

If a member of your family has coached, managed or played with any league or club belonging to Alabama Youth Soccer Association then it is very likely you have an account. Click on the Forgot Username/Password link from the previous page to see if the system matches you.

If the system cannot find a match it may be that your information has not been updated recently; please do not create a new account, contact your league, club, AYSA 205-991-9779 or Affinity Sports 1-800-808-7195 to help locate your account.

Account Frequently Asked Questions:

Q: My son has played before but now I am registering my daughter, does that mean I have an account?

A: **Yes**, the Affinity Sports system is based on family accounts and not individual player accounts. **All parents who have registered a child to play with any club AYSA have an account.**

Q: My son/daughter has played for Club A before but this season I am registering her for Club E, do I still have an account?

A: **Yes**, the Affinity Sports system is integrated with all clubs that are a part of the state association.

Q: I have never registered online before but my child has played soccer in the past, do I have an account?

A: **Yes**, even if you have not personally registered online previously your club would have entered your family's registration information into the Affinity Sports system.

Q: I registered my son with club A and am now registering my daughter with club X, should I create a new account?

A: **No**, since the Affinity Sports system is based on family accounts instead of individual player accounts you should use your existing account to register both children, even if they are in different clubs. This way you only have to remember one username and password and when you log in you can see all your children's information.

Q: I have been a coach or team admin in the past and am now registering my child, should I create a new account?

A: **No**, the Affinity Sports system is based on family accounts and wants it's users to be able to log in and view all of their family information.
